

**2017 CoC NOFA
WEEKLY UPDATES AND NOTICES
August 25, 2017 – Addendum to Update on 8/23/17**

An update was posted on August 23, 2017 that referenced the new project scoring tool. Locally, the Scoring Committee has taken advantage of a HUD project rating and ranking tool available here: <https://www.hudexchange.info/resource/5292/project-rating-and-ranking-tool/>.

A link to this HUD tool is also available through www.rtfhsd.org on the NOFA 2017 page under "Scoring Tools."

Once you open the HUD tool, one of the spreadsheets provides the criteria/points for new projects that total the 200 points possible. However, information related to Renewal Projects should be ignored as it is not relevant to the local process.

Due to technical difficulties, we have been unable to post the full local new project scoring tool file itself, so we are posting on the RTFH site, under Scoring Tools, a PDF version of the local criteria that has been added to the HUD tool for local scoring purposes.

Anyone wanting to self score can take the HUD Tool as available on the HUD site and edit the "custom criteria" page to match what is on the locally customized tool (see PDF version under Scoring Tools) to achieve a final new project scoring tool. The tool referenced in this memo and posted on the RTFH website is NOT interactive.

Thank you,

NOFA TA Team
