Data & Results: Youth

For the youth count, dedicated outreach workers lead teams to canvas the county accompanied by homeless or formally homeless youth who have a personal knowledge of where to find ‘hidden’ youth. This week-long effort includes outreach as well as event-based approaches to reach as many youths as possible. Additionally, the providers and outreach teams survey youth who are sheltered, unsheltered, and unstably housed. Unstably housed youth include those that were couch surfing the week of the youth count.
