8,843

People
Housed**

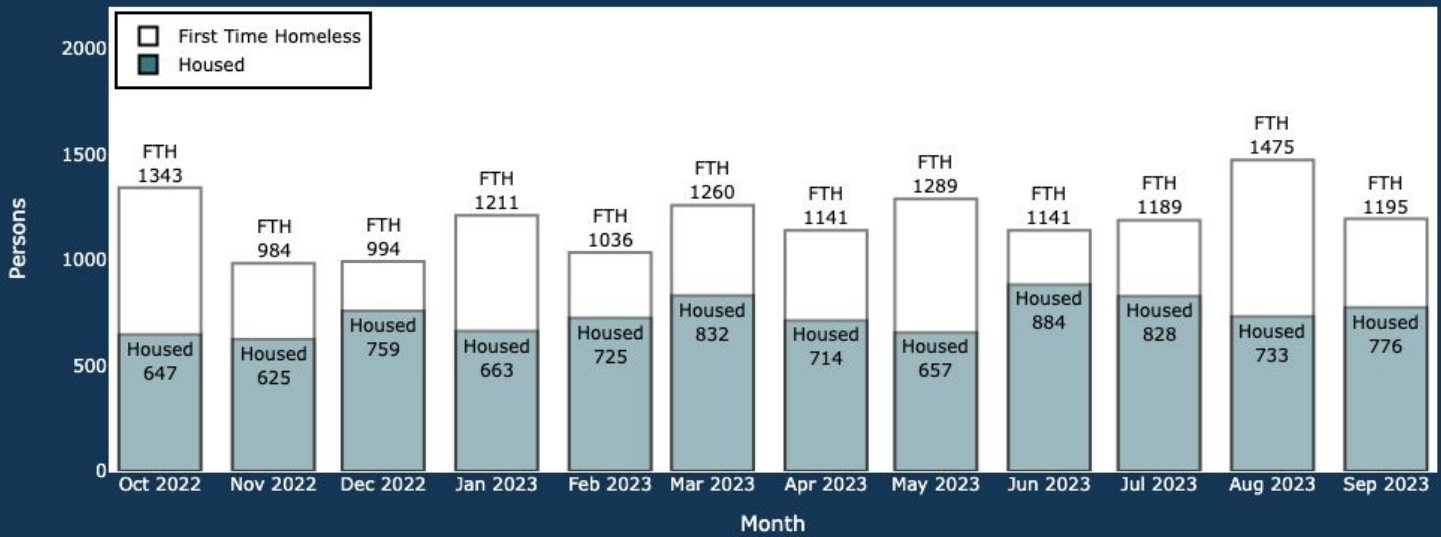

45,703

People Served

On average...

10 people found housing for every 16 people who experienced homelessness for the first time

First Time Homeless and Persons Housed by Month

Successful Housing Outcomes***

* First Time Homeless represents the number of people who had their first-ever interaction with a program which enters data into our community's HMIS database

** Housed refers to people that reported exiting a program to a housed situation and/or reported moving into housing through one of their program enrollments in HMIS

*** The total number of Successful Housing Outcomes might be greater than the total number of clients housed since it is possible that a client had multiple program entries in HMIS and these programs may differ in how they report a client successfully being housed.
